

Mail for Android

Create mail as usual PC model.

Changing Gmail Password on Android

1. Head over to your phone and choose **Gmail**.
2. Click **Manage your Google Account**.
3. Locate the section called **Privacy and personalization** and choose Security. Then choose **Signing into Google** and **Password**.
4. Simply enter your new password and choose **Change Password**.
5. That's it – you're all done.
