Evidence I Found	Type of Evidence	Ideas for More
	The device description shows what the device does and how it will work, including its main elements. It is clear to the reader how the user would interact with the device.	
	At least two functions are used. At least one function has a parameter that is called multiple times with different values.	
	Your program uses at least one input and one output. Your program is able to send information to and from the board as described in the project guide.	
	Your physical prototype has been created as described in the project guide. It uses physical connections to function.
