Teacher Instructions Notes:

- First teachers have to download the file Asha Treasure Hunt.rar folder.

- Then extract the folder of Asha Treasure Hunt.rar in C: drive location. You can get it from the online lesson plan. Follow the given QR code.

- C:\Asha Treasure Hunt → double click on Treasure.bat → CMD box will open → type y and give enter then the Treasure private folder will be hidden.

- The teachers have to teach how to find File Location for example: C:\Asha Treasure Hunt\Treasure Hunt Project\ in file explorer.

- Teachers please make sure children look for files within the folder C:\Asha treasure hunt. If they search in the entire C drive it will take more time. So ask them to search directly in Asha treasure hunt folder.

- After this ask the students to read the students notes and find the treasure.

- Teachers work: Before starting the treasure hunt class they need to ready the computer with the pre-requisite files. Then Load the particular needed file in the computer for each children group.
