

Coding part of Print Statement

Here is the code you can see if you face any doubt while doing this task

```
1 # Example: Print Statement
2 print("Hello, Circuit Python!")
3 print("Learning Python is fun!")
4
```

Expected Output:

```
Hello, Circuit Python!
Learning Python is fun!
```

Save and Run

- Save the file as `print_example.py`.
- Run it in Mu Editor.
- Observe the output in the console.
- Try changing the text inside the `print()` statements to see different outputs.
-
